Re: Commodore Semiconductor Group Site, Norristown, Pa.

Dear Ms. Billings:

As President of Innova-tech, Inc. (as well as R & M Associates, Inc., whose reply will be forthcoming separately), I can state that Innova-tech does no material manufacturing at our site at 915 Madison Avenue, Valley Forge Corporate Center.

Innova-tech designs, engineers and purchases all components of our wastewater treatment systems from various manufacturers, such as:

Philadelphia Mixers, Palmyra, Pa.
R.V. Industries, Honey Brook, Pa.
Peabody-Tech Tanks, Parsons, KS
R & M Associates, Inc., Valley Forge, Pa.

among others.

At most, over the last six (6) years, Innova-tech may have assembled several control panels in our facility. We do not purchase solvents other than in hand-held spray cans of solvent for use in our installations and field work throughout the U.S. of A.

Direct answers to your questions #1 through #8.

1. None, except hand-held spray cans, and only occassionally.
2. Not applicable as per #1
3. Not applicable as per #1
4. None
5. None

6. None
7. We lease space from R & M Associates, Inc. who holds the prime lease on this premises.
8. This response will be answered by R & M Associates, Inc.'s reply. However, we do not believe we are specifically insured.

We hope the above information clearly answers your request for information. If not, please do not hesitate to contact me for further information.

Sincerely,

John T. Murphy
President
